Features of the shifts of land and sea-level in the Atlantic and Gulf Coastal Plain during Pleistocene and post-Pleistocene time [abstract and discussion]; by T. W. VAUGHAN..... 113
Field experiment in isostasy [abstract and discussion]; by C. W. BROWN..... 114
Post-glacial river changes in Rhode Island and continental tilt [abstract and discussion]; by C. W. BROWN..... 114
Calcination volcanoes [abstract]; by W. H. HOBBS..... 115
Relations of fault-block mountains to folded chains [abstract and discussion]; by J. B. WOODWORTH..... 115
Structure of some mountains in New Mexico [abstract]; by NELSON H. DARTON..... 116
Nature of Paleozoic crustal instability in eastern North America [title]; by CHARLES SCHUCHERT..... 116
Stratigraphy and diastrophism of western Newfoundland [title]; by CHARLES SCHUCHERT and CARL O. DUNBAR..... 116
Large fault in western New York; by GEORGE H. CHADWICK.. 117
Experimental studies on the formation of jointing planes [abstract]; by FRED E. WRIGHT..... 120
Structural features of the southern Ouachita Mountains, Oklahoma [abstract and discussion]; by CHARLES W. HONESS.. 121
Heart Mountain overthrust, near Cody, Wyoming [abstract]; by D. F. HEWETT..... 122
Presidential address: Earth sciences as the background of history [title]; by JOHN C. MERRIAM..... 122
Wonders of Bryce Canyon, Utah [title]; by J. W. PACK..... 122
Annual smoker..... 122
Session of Tuesday, December 30..... 122
Report of the Auditing Committee..... 123
Symposium on researches in sedimentation..... 123
Research in sedimentation [title]; by T. WAYLAND VAUGHAN 123
The value of terrestrial organisms in the interpretation of sediment [title]; by J. P. BUWALDA..... 123
Mechanical research in the investigation of sediments [title]; by EUGENE WESLEY SHAW..... 123
Chemical researches in the investigation of sediments [title]; by H. E. MERWIN..... 123
Diagenesis in sedimentation [title]; by CHARLES SCHUCHERT 123
Titles and abstracts of papers presented before the morning session and discussions thereon..... 123
Preliminary results of a study of the San Francisco Bay sediments [abstract and discussion]; by GEORGE D. LOUDERBACK 123
Till argillites (pellodites), Precambrian, Permian, and Pleistocene [abstract]; by ALFRED C. LANE..... 125
Titles and abstracts of papers presented before the afternoon session of Tuesday..... 125
Mississippian tuff in the Ouachita Mountain region [abstract and discussion]; by H. D. MISER..... 125

PUBLICATIONS OF THE GEOLOGICAL SOCIETY OF AMERICA

Regular Publications

The Society issues annually, in four quarterly parts, a single serial octavo publication entitled Bulletin of the Geological Society of America, the edition being 700 copies. A small supply of authors' separates of the longer articles is kept for sale by the Secretary at the prices quoted in each volume.

The Bulletin is sold at the uniform price of ten dollars ($10.00) per volume, with a discount of twenty-five (25) per cent to Fellows of the Society, persons residing elsewhere than in North America, and public and institutional libraries; carriage extra. Subscriptions are payable in advance. Regular subscribers within the United States of America and its possessions receive their parts, postage paid, as issued. Forty (40) cents per volume must be added to the subscription price to cover postage to other countries in the Postal Union.

The price of the index to volumes 1-10 is $2.25; to volumes 11-20, $3.50, and to volumes 21-30, $3.75; carriage extra. No reduction is made to dealers. Orders should be addressed to the Secretary, whose address is care of the American Museum of Natural History, New York, N. Y., and drafts and money orders should be made payable to *The Geological Society of America*.
